Feedback on team dynamics:

1. How effectively did your group work?

Our group work together very effectively especially through setting up times to meet and discuss on the project. Our group was fair when it came down to doing some of biweekly assignments are tried to split it up and whoever needed assistance, we would be active to help contribute.

2. Were the behaviors of any of your team members particularly valuable or detrimental to the team? Explain.

There were many valuable things on my team behaviors when doing this assignment . If one of use did not completely understand some of the subjects on the project or need more clarification, we help our fellow team to learn and understand. Despite our schedule we always found a way to communicate with one another and help each other out.

3. What did you learn about working in a group from this project that you will carry into your next group experience?

What I gained from working as a group for this project is collaborating together to ensure the quality of the project and always being updated with information. I have learned to do what you can do and seek help when you need it and inform your group members of any issues or problems you need addressed.
